Rachit Mishra

Salesforce Developer | Apex · LWC · Flows · Einstein GenAI

Prayagraj, Uttar Pradesh | +91-6387714371 | mishrarachitalld@gmail.com | LinkedIn | GitHub

SUMMARY

Salesforce Developer at The Adecco Group building GenAI-enabled solutions for multiple markets with Apex, Lightning Web Components, Flows, Einstein prompt templates and integrations. Top 2% finisher in Amazon ML Challenge 2025, combining enterprise Salesforce delivery with a strong Python and ML foundation.

EXPERIENCE

The Adecco Group **Feb 2026 – Present**
Salesforce Development *India*

Junior Software Developer (Salesforce) **May 2026 – Present**

- Independently built a configuration-driven comparison and ranking tool for business users: deterministic Apex scoring engine, interactive LWC interface, multilingual AI-generated explanations and export; iterated through UAT feedback to reduce manual comparison effort
- Implemented GenAI features with Apex, Flows, LWCs and Einstein prompt templates (interview preparation, account summaries), reusing one shared implementation across markets through configuration instead of per-country code forks
- Built market-specific automation, including transcript-based skill extraction and automatic verification, configured for multiple European markets
- Merged 67 pull requests across 5 global and regional repositories and developed or enhanced 60+ Apex classes, LWCs, Flows and prompt templates, validated through Azure DevOps pipelines
- Hardened security (USER_MODE migration, permission cleanup), fixed Apex test failures and PMD violations, and handled integration endpoint changes and cross-environment deployments

Software Developer Intern (Salesforce) **Feb 2026 – Apr 2026**

- Delivered Apex, LWC and Flow tasks under senior review; wrote test classes, resolved defects and learned Salesforce DX, Git and multi-org deployment workflows

TECHNICAL SKILLS

Salesforce: Apex, Lightning Web Components, SOQL, Flows, Platform Events, REST APIs, Named Credentials, Einstein Prompt Builder, Salesforce DX/CLI, Data Loader
Integration & Tools: MuleSoft, Azure DevOps, Git/GitHub, CI/CD, PMD, VS Code
Languages: Apex, JavaScript, Python, Java
Web & Data: React, Node.js, HTML5/CSS3, MongoDB, MySQL
Machine Learning: Scikit-learn, Pandas, NumPy, XGBoost, LightGBM

PROJECTS

Vibely – Full Stack Web Application | *React, Node.js, MongoDB, Zustand* **2024**

- Built and deployed a full-stack app with RESTful APIs, MongoDB persistence and a responsive React 19 UI
- Managed client state with Zustand and client-server communication with Axios; used Git/GitHub for version control

ACHIEVEMENTS

Amazon ML Challenge 2025 – Smart Product Pricing | *Team ML_Hustlers* **2025**

- Ranked 147 of 8000+ teams (top 2%) with a LightGBM and XGBoost ensemble (SMAPE 48.81), NLP-based feature engineering and 5-fold cross-validation

EDUCATION

Bundelkhand Institute of Engineering and Technology **2022 – 2026**
B.Tech, Computer Science and Engineering – ***CGPA: 7.67*** *Jhansi, Uttar Pradesh*

CERTIFICATIONS

Salesforce PD1 – In progress | **Trailhead Agentblazer** – In progress | **AWS Solutions Architect** – GeeksforGeeks
